LUIS ANGEL ELIZONDO GALLEGOS

Tech Lead for Backoffice | Software Engineering | Cloud | AI & Data
Monterrey, Mexico • luisangelelizondo4554@gmail.com • linkedin.com • luiselizondo.tech

PROFILE

Tech Lead with a multidisciplinary background across software engineering, cloud architecture, data, AI, and product development, focused on building technology that automates complex operational processes and delivers measurable business impact. Experienced in backend systems, APIs, cloud-native architectures, AI/OCR automation, data products, and technical leadership across high-volume financial operations.

EXPERIENCE

Crediclub | Tech Lead — *Mar 2026 – Present*

- Lead the architecture and delivery of scalable **backend, cloud, automation, and AI solutions** on **Microsoft Azure and AKS**, coordinating engineering execution across APIs, Kubernetes, CI/CD, PostgreSQL, and secure service integrations
- Designed and developed **Aeris**, an internal credit-renewal platform that **doubled operational productivity and enabled the operation to scale from ~70% to 100% renewal coverage without increasing headcount**.
- Led the implementation of an automated signature-verification service, later integrated into the individual-credit workflow, enabling **~80% of signature volume to be automatically approved** and significantly reducing manual intervention.
- Led the development of a centralized **KYC document management and validation services** using OCR for national IDs and proof of address, enabling document reuse across credit products and reducing duplicate collection requirements.
- Automated approximately **70% of manual document-review workload**, unlocking operational capacity equivalent to **25+ FTE (~MXN 4.5M in annual equivalent capacity)**.

Crediclub | Product Trainee - Product Analyst — *Feb 2025 – Jul 2025 - Mar 2026*

- Built a **Twilio-based communications platform** for scheduled collections, marketing, and research campaigns, including **WhatsApp Flows**, delivery/response tracking, and performance dashboards.
- Built **customer segmentation and profiling** for credit and savings products using WhatsApp surveys, credit behavior, clustering, and AI to develop actionable **user personas**.
- Designed and implemented an **end-to-end ATS** with **100% Mexico coverage**, integrating document management, candidate scoring, process traceability, and **AI-assisted competency evaluation**.

Datomicos | AI Solutions Development — *Feb 2024 – Feb 2025*

- Developed AI, machine-learning, analytics, and software solutions for companies including Crediclub, GILSA, and Grupo Treviño.
- Built **behavioral customer segmentation and executive analytics for GILSA**, leveraging purchase frequency, product mix, transaction, and delivery patterns to identify high-value customer profiles and support **inventory-allocation decisions for an urban fulfillment hub**.

EDUCATION

Tecnológico de Monterrey | B.S. in Business Intelligence — *2025*

- Final grade: **99.43 / 100 - Academic Excellence**
- Top **1% of Business School**
- Academic Talent Scholarship
- Concentration in **AI with Business Impact |** Concentration in **Data Analytics and AI Tools**

SKILLS

- **Engineering:** .NET / ASP.NET Core, TypeScript, JavaScript, React, Next.js, REST APIs, Software Architecture, Git, CI/CD
- **Cloud & DevOps:** Azure, Kubernetes (AKS), Docker, Azure DevOps, Serverless, Key Vault, Blob storage, Google Cloud
- **AI & Data:** Python, SQL, PostgreSQL, SQL Server, MySQL, Databricks, Machine Learning, OCR / Document AI, Computer Vision, LLM / OpenAI integrations, Clustering, Data Modeling
- **Analytics:** Power BI, Tableau, Excel, Data Visualization, Customer Segmentation, Executive Analytics, Business Intelligence
- **Leadership & Product:** Technical Leadership, Solution Design, Product Development, Process Automation, Stakeholder Management, Requirements Analysis, Team Coordination
